WORK EXPERIENCE

February 2022 - July 2022 │ Delta The Innovators │ Intern

- Worked on the editorial materials for the company.
- Designed and created an volume of their technical magazine on the topic of "Metaverse - A Virtual Experience".

TECHNICAL PROJECTS

Terra World - A 2D Unity Game │ August 2021

- I used Tilemaps to create the UI of this action-adventure game and Reinforcement Learning to help train AI agents in the game which acted as enemies to the main character.

Web Application to report drug trafficking anonymously │ March 2022

- This was our project for Smart India Hackathon 2022.
- We created a web app to help users report complaints related to drug trafficking anonymously with the help of maps using Leaflet.
- We also used NLP techniques to extract information from the complaints.

Finance Edu – An UE4 Game │ February 2022

- Worked on an interactive game using UE4 that aims to teach financial literacy to individuals.

Android Application pertaining to waste management │ September 2021

- Developed an android application using Java for segregating waste materials and selling reusable products using an auction technique.

Interview Assistance and Assessment │ July 2022

- Developed an interactive visual tool to help students practice mock interviews and programming exercises.
